

Keith Vertanen

keithv@keithv.com • <http://keithv.com>

EDUCATION

- Ph.D.** University of Cambridge, 2009
Thesis: "Efficient Correction Interfaces for Speech Recognition"
Supervisor: Sir David J.C. MacKay FRS
- M.Phil.** University of Cambridge, Computer Speech, Text and Internet Technology, 2004
Thesis: "Efficient Computer Interfaces Using Continuous Gestures, Language Models, and Speech"
Supervisors: Sir David J.C. MacKay FRS and Steve Young FEng
- M.S.** Oregon State University, Computer Science, 1999
Thesis: "A Parallel Implementation of a Fluid Flow Simulation using Smoothed Particle Hydrodynamics"
Supervisor: Michael Quinn
- B.A.** University of Minnesota, Morris, double major in Computer Science (honors) and Mathematics, 1997
Undergraduate research project: "Scheduling Problems in a Practical Allocation Model"
Supervisor: Dian Lopez

PROFESSIONAL EXPERIENCE

<i>Assistant Professor</i> , Michigan Technological University	2015-present
<i>Associate Professor</i> , Montana Tech	2014-2015
<i>Assistant Professor</i> , Montana Tech	2011-2014
<i>Lecturer</i> , Princeton University	2010-2011
<i>Postdoctoral Research Associate</i> , University of Cambridge	2009-2010
<i>Instructor</i> , Oregon State University	1999
<i>Teaching Assistant</i> , Oregon State University	1997-1999

RESEARCH INTERESTS

I specialize in designing intelligent interactive systems that leverage uncertain input technologies. A particular focus of my research is on systems that enhance the capabilities of users with permanent or situationally-induced disabilities. My broader interests include human-computer interaction (HCI), speech and language processing, mobile interfaces, and crowdsourcing.

AWARDS

NSF CAREER award, 2018.
Best paper, CHI 2015 (lead author).
Best honorable mention, ETRA 2012 (co-author).
Best student paper, ASSETS 2012 (co-author).
Institute of Computing and Cybersystems (ICC) Achievement Award, Michigan Tech, 2018.
Distinguished Researcher Award, Montana Tech, 2014.
Exceptional Instructor Evaluation Score, Michigan Tech, Spring 2017, Spring 2016.

FUNDING

- *Automatic Speech Recognition using Deep Neural Networks (PI)*, Michigan Tech Research Excellence Fund (REF) award (2018). This project will create a state-of-the-art speech recognition engine for use in interactive systems for instrumented environments and wearable devices, \$45K.
- *NSF CAREER: Technology Assisted Conversations (PI)*, National Science Foundation (2018). This project will investigate how technology can augment our conversations, including for individuals who use Augmentative and Alternative Communication (AAC) devices, \$539K.
- *Sensing and Feedback for On-Body Input (PI)*, Paul William Seed Grant, Michigan Tech's Institute of Computing and Cybersystems (2018). This project will investigate how to appropriate everyday surfaces, including one's own body, as an input device for interactive systems, \$44K.
- *Less is More: Investigating Abbreviated Text Input via a Game (PI)*, Google Faculty Research Award (2016). This project will investigate how to improve touchscreen text input by allowing users to abbreviate their input, \$47K.
- *HPC Seed Grant*, Montana Tech (2013). Competitive grant stimulating research on Montana Tech's high-performance computing (HPC) cluster, \$5K.
- *New Faculty Seed Grant*, Montana Tech (2012). Competitive grant stimulating research among new Montana Tech faculty, \$5K.
- *Creating Enjoyable and Fluid Mobile Phone Touch-Screen Interfaces (Co-PI)*, Nokia Corporation (2009). This project investigates interaction techniques and language modeling for mobile devices, \$18K.
- *Conference Travel Grant*, PASCAL Network (2009). Travel grant to attend the ASRU 2009 conference, \$2K.
- *A Mobile Speech Recognition Correction Interface (PI)*, Nokia Corporation (2006). This project investigates speech recognition on the Nokia N800 mobile device, \$10K.
- *Conference Travel Grant*, International Speech Communication Association (2006). Travel grant to attend the Interspeech 2006 conference, \$1K.
- *Clerk Maxwell Scholarship*, University of Cambridge (2004). Scholarship awarded by the Cavendish Laboratory, \$120K.
- *Overseas Research Student Award* (2004). Scholarship awarded in UK-wide competition, \$40K.
- *Katherine E. Sullivan Scholarship*, University of Minnesota (1996). The University of Minnesota's most prestigious study abroad award funding study at a foreign university, \$14K.
- *Undergraduate Research Opportunities Program*, University of Minnesota (1995). Funded undergraduate research project with faculty mentor, \$1K.

MENTORING EXPERIENCE

- PhD advisor (1 PhD student), Michigan Tech (2016-present).
- Undergraduate research advisor (4 undergraduate students), Michigan Tech (2016-present).
- PhD co-advisor (1 student), University of St Andrews (2012-present).
- Undergraduate research advisor (3 undergraduate students), Montana Tech (2013).
- Undergraduate research advisor (1 undergraduate student), Princeton University (2010-11).

INDUSTRY EXPERIENCE

Software Consultant, Wildfire Communications 2002-2003
Designed and built new features for Wildfire's voice-driven virtual assistant.

Software Engineer, etrieve, Inc. 1999-2002
Lead designer of voice application for mobile access to email, contact, and calendar information.

- Team leader of the voice application group, including developing and instituting best practices.
- Responsible for reviewing the usability of etrieve's voice, web, and mobile device interfaces.
- Designed the dialog flow, prompts and grammars for the voice application.
- Created hardware and software architecture for scalable and high availability 24x7 service.

Computer Specialist, In Time 1990-2016
Responsible for computing and web publishing tasks within the company.

ACADEMIC SERVICE

Associate editor:

- International Journal of Human Computer Studies (2014-present)

Associate chair / senior program committee:

- CHI: ACM International Conference on Human Factors in Computing Systems (2017-19)
- IUI: International Conference on Intelligent User Interfaces (2015)
- MobileHCI: ACM International Conference on Human-Computer Interaction with Mobile Devices and Services (2014)

Doctoral consortium co-chair:

- ASSETS: ACM SIGACCESS Conference on Computers and Accessibility (2018)

Vice-president:

- SIG-SLPAT, Special Interest Group, Speech and Language Processing for Assistive Technologies (2015-2016)

Program committee:

- ASSETS: ACM SIGACCESS Conference on Computers and Accessibility (2018)
- IUI: International Conference on Intelligent User Interfaces (2014)
- SLPAT: Workshop on Speech and Language Processing for Assistive Technologies (2012-13)
- MobileHCI: ACM International Conference on Human-Computer Interaction with Mobile Devices and Services (2011)
- CHI Workshop on Text Entry (2012, 2013, 2016, 2017)
- BCS-HCI: British Computer Society Conference on Human-Computer Interaction (2010)

Student research competition judge:

- ASSETS: ACM SIGACCESS Conference on Computers and Accessibility (2014)

Reviewer:

- TOCHI: ACM Transactions on Computer-Human Interaction (2017)
- International Journal of Human Computer Studies (2016)
- IEEE Transactions on Human-Machine Systems (2015)
- IEEE Pervasive Computing (2017)
- Computer Speech and Language (2012)
- CHI: ACM International Conference on Human Factors in Computing Systems (2010-16)
- IUI: International Conference on Intelligent User Interfaces (2012-13, 2017)
- UIST: ACM Symposium on User Interface Software and Technology (2012, 2013, 2016, 2017)
- MobileHCI: ACM International Conference on Human-Computer Interaction with Mobile Devices and Services (2013, 2015, 2016, 2017)
- NordiCHI: Nordic Conference on Human-Computer Interaction (2012)
- ICASSP: IEEE International Conference on Acoustics, Speech, and Signal Processing (2011)
- ICMI: ACM International Conference on Multimodal Interaction (2013)
- BCS-HCI: British Computer Society Conference on Human Computer Interaction (2009)

INVITED & CONFERENCE TALKS

The Impact of Word, Multiple Word, and Sentence Input on Virtual Keyboard Decoding Performance

CHI '18: ACM International Conference on Human Factors in Computing Systems, April 2018.

VelociTap: Investigating Fast Mobile Text Entry using Sentence-Based Decoding of Touchscreen Keyboard Input

CHI '15: ACM International Conference on Human Factors in Computing Systems, April 2015.

Complementing Text Entry Evaluations with a Composition Task

CHI '14: ACM International Conference on Human Factors in Computing Systems, April 2014.

The Feasibility of Eyes-Free Touchscreen Keyboard Typing

Department of Computer Science, University of Washington, October 2013.

Efficient Correction Interfaces for Speech Recognition

School of Computer Science, University of St Andrews, June 2013.

The Potential of Dwell-Free Eye-Typing for Fast Assistive Gaze Communication

ETRA '12: ACM Symposium on Eye-Tracking Research and Applications, March 2012.

Intelligently Aiding Human-Guided Correction of Speech Recognition

AAAI '10: AAAI Conference on Artificial Intelligence, July 2010.

Efficient Correction Interfaces for Speech Recognition

MIT Computer Science and Artificial Intelligence Lab, May 2010.

Efficient Correction Interfaces for Speech Recognition

Google, April 2010.

Speech Dasher: Fast Writing using Speech and Gaze

CHI '10: ACM International Conference on Human Factors in Computing Systems, April 2010.

Recognition and Correction of Voice Web Search Queries

Interspeech '09: International Conference on Spoken Language Processing, September 2009.

Parakeet: A Continuous Speech Recognition System for Mobile Touch-Screen Devices

IUI '09: ACM International Conference on Intelligent User Interfaces, February 2009.

On the Benefits of Confidence Visualization in Speech Recognition

CHI '08: ACM International Conference on Human Factors in Computing Systems, April 2008.

POSTERS & DEMOS

Towards Improving Predictive AAC using Crowdsourced Dialogues and Partner Context
ASSETS '17: ACM SIGACCESS Conference on Computers and Accessibility, October 2017.

Speech Dasher: A Demonstration of Text Input using Speech and Approximate Pointing
ASSETS '14: ACM SIGACCESS Conference on Computers and Accessibility, October 2014.

The Feasibility of Eyes-Free Touchscreen Keyboard Typing
ASSETS '13: ACM SIGACCESS Conference on Computers and Accessibility, October 2013.

A Collection of Conversational AAC-like Communications
ASSETS '13: ACM SIGACCESS Conference on Computers and Accessibility, October 2013.

Spelling as a Complementary Strategy for Speech Recognition
Interspeech '12: International Conference on Spoken Language Processing, September 2012.

Getting it Right the Second Time: Recognition of Spoken Corrections
SLT '10: IEEE Workshop on Spoken Language Technology, December 2010.

Automatic Selection of Recognition Errors by Respeaking the Intended Text
ASRU '09: IEEE Workshop on Automatic Speech Recognition and Understanding, December 2009.

Parakeet: A Demonstration of Speech Recognition on a Mobile Touch-Screen Device
IUI '09: ACM International Conference on Intelligent User Interfaces, February 2009.

Combining Open Vocabulary Recognition and Word Confusion Networks
ICASSP '08: IEEE International Conference on Acoustics, Speech, and Signal Processing, March 2008.

Speech Dasher – A Novel Interface for Correcting Speech Recognition Errors
ICASSP '08: IEEE International Conference on Acoustics, Speech, and Signal Processing, March 2008.

Speech and Speech Recognition during Dictation Corrections
Interspeech '06: International Conference on Spoken Language Processing, September 2006.

Speech Dasher: An Efficient Interface Using Speech and Gestures
NIPS '04: Conference on Neural Information Processing Systems, December 2004.
